

Washington Coast Sustainable Salmon Partnership

Planning Committee Meeting

ROUGH NOTES

March 1, 2011 10:00 am – 12:00 pm
Conference Call and Online

Attendees

Miles Batchelder, Chair
Bob Burkle
Dana Dietz
Devona Ensmenger

Mike Johnson
Katie Krueger
Key McMurry
Phil Miller

Lee Napier
Kara Nelson
Rich Osborne

After meeting, staff will ask Planning Cmtee members to review the results of 4 Strategy Theme Workshops for:

- feasibility
- resources – capacity to do
- likelihood of success
- key players
- relative impacts on targets – **PHIL: as criteria for prioritizing**
- who is already working on this? **PHIL: acknowledge specific work that's already being done**

Ask reviewers for info re this specific existing work

PHIL: Who's going to be responsible? WCSSP primary or secondary/support?

Further detailing, phasing, prioritization, etc is part of Implementation, but there needs to be some in this first version of Plan

Katie supports including things that WCSSP may not do itself but that it supports so that project proposals, LEG strategies, etc. can use this support in promotion of their aims. Dana – integrate (in overall terms) in Plan what LEG strategies are doing.

Miles:

- noteworthy how same things came up again and again, in different workshops: Interconnectedness
- Ecosystem Scale perspective
- Katie added that broad perspective will hopefully alleviate some people's concern that MRCs, for instance, are too restricted

PHIL: specifically acknowledge BROAD PARTNERSHIPS that we know of
